GNSO Council Review of San Juan GAC Communiqué – FINAL WITH CORRECTION

TO: Tripti Sinha

Chair, ICANN Board of Directors

CC: Nicolas Caballero, GAC Chair

Dear Tripti,

On behalf of the GNSO Council, we are transmitting to you the GNSO Council's review of the San Juan GAC Communiqué. The GNSO Council adopted the review at its 18 April meeting, and the attached review document is hereby formally transmitted to the Board.

The GNSO Council's review of each GAC Communiqué is an effort to provide feedback to you, in your capacity as members of the ICANN Board, as you consider issues referenced in the Communiqué that we believe relate to policies governing generic Top-Level Domains. Our intent is to inform you and the broader community of gTLD policy activities, either existing or planned, that may directly or indirectly relate to advice provided by the GAC. The GNSO Council hopes that the input provided through its review of the GAC Communiqué will enhance co-ordination and promote the sharing of information on gTLD related policy activities between the GAC, Board and the GNSO.

Kindly,

Greg DiBiase, GNSO Chair

To ensure the Applicant Support Program (ASP) focuses on facilitating global diversification of the new gTLD application program, bearing in mind historical community calls for a ‘remedial round’, recalling ICANN77 GAC advice.</p> <p>ii. To publish a comprehensive ASP communications and outreach strategy and associated implementation plan for review and comment by the community with itemized costs, detailed scope and clear metrics of success identified, to complement the overview of the broader communications plan for the next round of new gTLDs included in the Implementation Plan. This ASP communications and outreach strategy must include details on building awareness of Universal Acceptance and Internationalized Domain Names and should leverage community connections to ensure underserved regions are reached.</p> | <p>yes</p> | <p>SubPro Small Team Plus</p> <p>In addition, the SubPro PDP Recommendations relating to Applicant Support are in the process of implementation by ICANN Org supported by a cross-community Implementation Review Team (“IRT”).</p> | | <p>This is an issue of importance to the GNSO Council as well.</p> <p>Small Team Plus has drafted the supplemental recommendation for 17.2.</p> <p>The GNSO Council recommends expanding the scope of Applicant Support provided to Applicant Support Program beneficiaries beyond the application fee to provide access to an array of resources useful for the capacity building, planning, application, evaluation, pre-delegation and post-delegation phases of the lifecycle of the application. For the avoidance of doubt, this recommendation does not obligate ICANN to provide support for all phases of the lifecycle of the application process as well as the registry.</p> <p>This supplemental recommendation 17.2 was reviewed and discussed during ICANN79 by the</p> |
