

GNSO Council Emergency Meeting 26 March 2012 at 16:00 UTC

Reason for abstention

Robin Gross – temporary alternate for **Wendy Seltzer**

I'm abstaining from this because this entire process has been a complete circumvention of the multi-stakeholder bottom up policy development process. It's just been a sham of a proposal cooked up by a couple of lobbyists and shoved down the GNSO's throat, so that's why I'm abstaining.
