# Cross-Community Working Group: New Generic Top-Level Domains Auction Proceeds

## WHAT CAN I EXPECT AT ICANN60 IN RELATION TO THIS TOPIC?

The Cross Community Working Group (CCWG) has scheduled face-to-face meeting time on Thursday, 2 November. The CCWG is expected to continue its deliberations per its [work plan](#).

## WHAT IS THIS ABOUT?

The New Generic Top-Level Domain (gTLD) Program established auctions as a last resort to resolve the competition sets between identical or similar terms (strings) for new gTLDs – an issue known as string contention. Ninety percent of contention sets scheduled for auction have been resolved through other means before reaching an auction conducted by Power Auctions LLC, ICANN’s authorized auction service provider. However, it was recognized from the outset that significant funds could accrue as a result of several successful auctions. The proceeds derived from such auctions have been reserved and earmarked within ICANN until such time as the ICANN Board authorizes a plan for the appropriate use of the funds. These proceeds are to be considered as an exceptional, one-time source of revenue.

All ICANN Supporting Organizations (SOs) and Advisory Committees (ACs) have chartered a CCWG to propose the mechanism to allocate the new gTLD Auction Proceeds. Following approval by the Chartering Organizations, the CCWG will submit its proposal(s) to the ICANN Board for consideration.

## WHY IS THIS IMPORTANT?

The new gTLD Auction Proceeds, derived from these last resort auctions, are distinct and ring-fenced funds. The Auction Proceeds are a single revenue source derived from all new gTLD Auction Proceeds round 1. The proceeds, net of direct auction costs, are fully segregated in separate bank and investment accounts. The proceeds are invested conservatively with any interest accruing to the proceeds. Since June 2014, 17 contention sets have been resolved via ICANN auctions. The total net proceeds to date are \$233.5 million USD. Details of the proceeds can be found [here](#). As of 11 February 2017, 16 contention sets remain to be resolved. It is important to keep in mind that approximately 90 percent of contention sets scheduled for auction are resolved prior to the auction. The total amount of funding resulting from auctions will not be known until all relevant applications have resolved contention.

## **WHAT IS THE CURRENT STATUS OF THIS PROJECT AND EXPECTED NEXT STEPS?**

The CCWG commenced its deliberations at the end of January 2017. It has 26 members appointed by the different Chartering Organizations, 49 participants, and 28 observers. The CCWG is tasked with developing a proposal(s) on the mechanism that should be developed to allocate the new gTLD Auction Proceeds. As part of this proposal, the CCWG is also expected to consider the scope of fund allocation and due diligence requirements that preserve ICANN's tax status, as well as related matters such as potential or actual conflicts of interest. The CCWG will NOT make any recommendations or determinations with regard to specific funding decisions (i.e., which specific organizations or projects are to be funded or not).

The CCWG initially focused on assessing the [expertise](#) available within the CCWG and identifying potential external experts that could assist the CCWG in its deliberations. To help inform the CCWG's deliberations, the group has also identified a series of possible questions for [external experts](#).

Furthermore, the CCWG deliberated on its approach for dealing with the charter questions and the proposed timeline. It agreed to the following phases:

1. Initial run-through of all charter questions to assess initial responses, identify possible gating questions, and determine the potential order in which questions need to be dealt with;
2. Address any charter questions that have been identified as requiring a further detailed response before commencing the next phase;
3. Compile a list of possible mechanisms that could be considered by the CCWG;
4. Determine which mechanism(s) demonstrates most potential to meet CCWG expectations and conforms with legal and fiduciary constraints;
5. Answer charter questions, as organized per Phase 1, for mechanism(s) that demonstrate the most potential;
6. Publish Initial Report for public comment following consensus on mechanism and responses to charter questions that meet legal, fiduciary, and audit constraints.

To facilitate deliberation on key concepts, the WG has been using [surveys](#) to collect input for the initial run-through of charter questions, which seems quite successful so far. Since ICANN59, the CCWG discussions have focused on those questions requiring a preliminary response prior to moving into the next phase of work. Those questions include the objectives/priorities for fund allocation, the timeframe for fund allocation, and whether the ICANN organization should be allowed to benefit from auction proceeds. Preliminary agreements reached to date can be found [here](#).

The CCWG expects to complete its Phase 2 work shortly so it will be able to commence its work on Phase 3, which will focus on compiling a list of possible mechanisms for fund allocation.

### HOW CAN I GET INVOLVED?

Anyone interested can join this effort as a participant or observer. Please complete the [registration form](#) or email the GNSO Secretariat at [gnso-secs@ICANN.org](mailto:gnso-secs@ICANN.org).

### BACKGROUND

Following a number of sessions on this topic during the ICANN53 in Buenos Aires (see [buenosaires53.icann.org/en/schedule/mon-soac-high-interest](https://buenosaires53.icann.org/en/schedule/mon-soac-high-interest) and [buenosaires53.icann.org/en/schedule/wed-cwg-new-gtld-auction](https://buenosaires53.icann.org/en/schedule/wed-cwg-new-gtld-auction)), a discussion paper was published in September 2015 to solicit further community input on this topic as well as the proposal to proceed with a CCWG on this topic. The feedback received confirmed the support for moving forward with a CCWG. James Bladel, GNSO Chair, reached out to all the ICANN SOs and ACs to ask for volunteers to participate in a Drafting Team (DT) to develop a charter for a CCWG on this topic. All ICANN SOs and ACs, apart from the ccNSO, responded to this request and have put forward volunteers to participate in the DT. The DT commenced its deliberations on Tuesday, 23 February 2016. A draft charter for community discussion was published in advance of ICANN56 and discussed during [cross-community session](#) held at ICANN56. Following ICANN56, the DT [reviewed all the input](#) received and updated the proposed charter accordingly. On 13 September 2016, [this proposed charter](#) was shared with all ICANN SOs and ACs with the request to review it and identify pertinent issues that would prevent adoption of the charter, if any. Subsequently, a webinar was held on 13 October 2016 to allow for additional time and information to undertake this review. The final proposed charter was submitted to all ICANN SOs and ACs on 17 October 2016, and subsequently each ICANN SO and AC confirmed the adoption of the charter. Subsequently, a [call for volunteers](#) was launched and the CCWG was chartered by all ICANN SOs and ACs to propose the mechanism to allocate the new gTLD Auction Proceeds. The Chartering Organizations are, namely, the Address Supporting Organization (ASO), the At-Large Advisory Committee (ALAC), the Country Code Names Supporting Organization (ccNSO), the Generic Names Supporting Organization (GNSO), the Governmental Advisory Committee (GAC), the Security and Stability Advisory Committee (SSAC), and the Root Server System Advisory Committee (RSSAC). Following approval by the Chartering Organizations, the CCWG will submit its proposal(s) to the ICANN Board for consideration.

**STAFF RESPONSIBLE:** Marika Konings, Joke Braeken (ccNSO)
