

REGISTRAR STAKEHOLDER GROUP

**At the 41st ICANN Meeting
Singapore**

24 June 2011

Dear Rita:

As you conclude your service on ICANN's Board of Directors, the Registrar Stakeholder Group pauses to acknowledge and thank you for your service to the Board and to our community.

Though you were appointed to the Board in 2006, your contributions to Internet policy began far before taking your seat on the Board. You have worked on policy initiatives since ICANN's own formation in 1998, represented clients involved in the first round of top-level domain expansion, and assisted in drafting ICANN's Uniform Domain Name Dispute Resolution Policy. You also contributed valuably to the establishment of the Policy Development Process on which our community relies.

To meet the perpetual challenge of a strong and secure domain name system, we hope you will choose to continue the helpful and thoughtful involvement in ICANN that our community has come to value.

On behalf of all registrars, our best wishes for continued success.

Sincerely,

Mason Cole
Chairman

Rita Rodin Johnston
