

Amendments to Registry-Registrar Agreement (“RRA”) Proposed by Registry Operator for:

.RED, .BLUE, .PINK, .KIM, .SHIKSHA and .MOBI (IDN)

The following changes have been made in response to feedback from members of the registrar community in an effort to offer a more balanced RRA. As such, they are intended to be beneficial to our registrar partners. We trust that registrars will be pleased with the changes.

The principal changes are as follows:

1. Section 2.5.1 and 2.5.2 – Changes clarify that Engineering and Customer Support are provided on a 24/7/365 basis;
2. Section 2.8 – This is a new paragraph providing that Afilias will make available to registrars via FTP server (i) a list of all domain names not available for registration in a TLD and (ii) a list of all domain names within a TLD that are subject to non-standard pricing (if any);
3. Section 3.8.3 – The additional sentence provides clarity around notification methods in the event of a change of <authinfo> codes;
4. Section 4.1 – The changes in this section require Afilias to provide greater notice to the registrar in the event of certain price changes adopted by Afilias;
5. Section 6.1 – A paragraph is added whereby Afilias agrees to indemnify the registrar as described;
6. Section 6.2 – The change clarifies the representation regarding ICANN accreditation;
7. Section 7.1 – The changes clarify the registrar’s obligations regarding providing proof of insurance to Afilias.
8. Section 9.4 – The change is to make the survival clause consistent with the addition of the severability clause in 10.9;
9. Section 10.9 – A severability clause is added; and
10. Exhibit A – Amendments are made for clarification purposes.
