Patrick Fältström, Technical Community

Hiro Hotta, .jp

Minjung Park, .kr

Current status of the IDN PDP WG 1:

- An updated IDN PDP timeline was posted on the ccNSO website
- The current phase of the group leading up to Brussels involves coming up with ideas regarding the overall IDN policy
- The second IDN PDP Working Group has been established and will focus on the ICANN Bylaws.
- The Working Group must decide whether it should look at the possibility of including Latin script IDNs. If included this may be out of scope of the current IDN ccTLD PDP and in which case the current PDP may need to be re-launched.
- The comments to the Chair's Interim Paper is to be reviewed and discussed.

Action 07-01:

The Chair and *Bart Boswinkel* to send a note to the Working Group email list, explaining the issue of Latin script and the current state of the Working Group for further discussion.

Action 07-02:

Kristina Nordström to announce upcoming calls and information about f-2-f meeting in Brussels on the Working Group email list.
