
Policy Amendment Process: Protections for Certain Red Cross Names in All Generic Top-Level Domains

WHAT CAN I EXPECT AT ICANN59 IN RELATION TO THIS TOPIC?

The Generic Names Supporting Organization (GNSO) Council voted in May 2017 to initiate the GNSO process to consider amendments to previously completed Policy Development Process (PDP) recommendations, prior to their adoption by the ICANN Board. These recommendations are pertaining to certain names of the National Societies of the Red Cross and the International Red Cross Movement. The original PDP Working Group (WG), which completed its work in November 2013, has been reconvened for the purpose of this process. While the PDP WG will not be meeting at ICANN59, the GNSO Council is expected to receive a status update from the WG's chair during the GNSO Council's Public Meeting on Wednesday, 28 June (Day 3) at 13:00-15:00.

WHAT IS THIS ABOUT?

This section of the Policy Briefing should be read together with the following section entitled "Implementation Status: Protection of International Governmental Organization (IGO)-International Non-Governmental Organization (INGO) Identifiers in All Generic Top-Level Domains (gTLDs) Policy Recommendations".

The Protection of IGO-INGO Identifiers in All gTLDs PDP was completed in November 2013. Although the GNSO Council accepted all the PDP Working Group (WG) recommendations, the ICANN Board to date has approved only those recommendations that are consistent with the Governmental Advisory Committee (GAC) advice received on the subject. The remaining recommendations are still under Board consideration. They were the subject of a facilitated dialogue between the GAC and the GNSO at ICANN58 as part of an ongoing process to attempt to reconcile the GAC advice and the GNSO PDP recommendations.

Following that facilitated discussion, the ICANN Board requested that the GNSO Council consider initiating the GNSO policy amendment process in accordance with the GNSO's procedures. This policy amendment process pertains to the names of 190 Red Cross National Societies and two names identifying the International Red Cross Movement, as well as a limited, defined set of variants for these names. In May 2017, the GNSO Council voted to launch the policy amendment process. The process, as outlined in the GNSO's PDP Manual, involves reconvening the original PDP WG to consult with the GNSO Council on the scope of the proposed amendment.

WHY IS THIS IMPORTANT?

The ICANN Bylaws contain specific provisions that outline specific steps to be taken by the Board in cases where it disagrees with either GAC advice or GNSO PDP recommendations. In this case, the Board elected not to trigger either of these processes when it adopted only those GNSO PDP recommendations that were consistent with GAC advice in April 2014, and it requested additional time to consider the remaining, inconsistent recommendations.

The GNSO Council launched the PDP on the Protection of IGO-INGO Identifiers in All gTLDs in November 2012. The PDP considered what the appropriate form and scope of protections would be, at both the top and second level of the Domain Name System (DNS), for the Red Cross, the International Olympic Committee (IOC), and other IGOs and INGOs. All these organizations perform important public interest or humanitarian work. Cyber-squatting and related abuse of domain names identical or confusingly similar to their names and acronyms could significantly impact their missions and resources. The GNSO Council approved and the Board adopted part of the PDP outcomes, which included consensus recommendations that a limited list of Red Cross, IOC, IGO, and INGO identifiers be reserved. For the Red Cross, these are “Red Cross”, “Red Crescent”, “Red Crystal”, and “Red Lion and Sun” at the top and second level. For IGOs, only their full organizational names will be reserved at the second level. The appropriate DNS protections for many of the other identifiers associated with the Red Cross and IGOs – i.e. Red Cross National Society names, the names and acronyms of the International Red Cross Movement, and IGO acronyms – have yet to be finalized. The facilitated dialogue that took place between representatives of the GAC and the GNSO at ICANN58 was an attempt to reconcile the remaining inconsistencies between GAC advice and the GNSO PDP recommendations.

The GNSO Council recently initiated the policy amendment process only related to the specific names associated with the Red Cross (i.e. Red Cross National Society and International Red Cross Movement names). Discussion over IGO acronyms remains ongoing.

WHAT IS THE CURRENT STATUS OF THIS PROJECT?

In accordance with an agreed timeline, the reconvened PDP WG is expected to continue meeting after ICANN59 to discuss the proposed amendment to its previous PDP recommendations on Red Cross names. GNSO Council has asked the PDP WG to consider the scope of the proposal based substantially on the Board’s request from ICANN58.

WHAT ARE THE EXPECTED NEXT STEPS?

It is important to note that the GNSO's policy amendment process must take place before the Board acts on the PDP recommendations. Following the GNSO Council's consultation with the reconvened PDP WG, the process mandates that the proposed amendment be posted for public comment, following which the GNSO Council will consider whether to approve the amendment. The amendment will be considered approved only if a Supermajority of the GNSO Council votes to approve. The Board will then be expected to act in accordance with the ICANN Bylaws on the final results of this reconciliation process.

HOW CAN I GET INVOLVED?

You may follow the progress of the discussions by reviewing the background information on this project, observing the discussions, and looking out for any Public Comment forums that may be launched as part of the final reconciliation process.
