Dear Mr. Chehadé:

Pursuant to para. 2.9. of Registry Agreement we herewith notify of our intention to introduce amendments to the Registry-Registrar Agreement, effective as of 16 February 2015.

The purpose of the proposed changes is to ensure compliance with the Registry Operator's obligation per Specification 4 to the Registry Agreement to disclose, make publicly available and de-facto disseminate personal data of private individuals who have become domain names registrants and the requirement of Federal Law of Russian Federation of 27 July 2006 №152-FZ «On personal data» to treat that individual's personal data as confidential ones, i.e. not to disclose those to a third party and disseminate them without consent of the subject of personal data.

The proposed amendments are:

1. To include in the languages of sub-para. 6.7.1. of RRA an additional purpose of personal data processing - namely, for the purpose of provision of the Whois service;
2. To incorporate in Exhibit D Form of Consent to the Processing of Personal Data the private individual's consent to disclosure, making publicly available and dissemination of his/her personal data while providing the Whois service or other similar services, except for where that private individual uses Privacy or Proxy Service.

Please find attached hereto copies of the documents in the Track-Changes mode:

- Registry-Registrar Agreement
- Exhibit D Form of Consent to the Processing of Personal Data to RRA

Sincerely yours,

Irina Danelia
Deputy Director
