

Dear ccTLDs

As agreed at the ICANN meeting in Wellington in April the ccNSO Budget Fee Working Group is sending out a survey to find out what elements of ICANN's work is in line with what you believe they should do or not.

For the continuing work it is very important that you take 5 minutes to answer the questions and send the survey back.

The WG will, based upon the answers you give, continue to talk to ICANN with the aim to present something more substantial to members in Marrakesh.

Please consider this survey as your chance to tell us at an early stage what we should bring forward.

You have 3 weeks to answer the survey. Please send the responses to Donna Austin at donna.austin@icann.org

ICANN has told us that projects they are working on, which benefit the ccTLDs, and are set out in the table following.

Please indicate whether you agree or not that the nominated projects do benefit ccTLDs.

Activity	Yes	No	Comments
Ensure stability of the DNS			
Anycast of rootserver			
IANA 24/7/365			
Data Escrow			
Deployment of IDN			
Translation			
Regional Liaisons			
Partner activities in Developing countries			
Network Building
