

Glen de Saint Géry

Whereas Glen de Saint Géry has been involved in the ICANN world before there was an ICANN, and before anybody really understood what ICANN was.

Whereas Glen was instrumental in the development of the practices and procedures that have supported the operation and administration of the GNSO since its inception as the DNSO, and which have been adopted beyond the GNSO to support other ICANN supporting organisations and advisory committees.

Whereas Glen has been responsible for developing and mentoring not only ICANN staff performing support roles for the GNSO, but also incoming Councillors.

Whereas Glen has survived seven GNSO Chairs and too many GNSO Councillors to count.

Whereas Glen is the living embodiment of ICANN's core values of openness, transparency and fairness, having performed her duties without prejudice and with diplomacy, style, grace, humour and warmth that is second to none.

Resolved

The GNSO Council, from the bottom of our hearts, and on behalf of all of the GNSO Councils that have come before us, sincerely thank Glen for her dedication, warmth and love in supporting the GNSO and the work that we do on behalf of the global internet community.

In recognition of the significant contribution Glen has made to ICANN over the past 14 years, the GNSO Council recognizes that for the purposes of ICANN58 Copenhagen, the GNSO be known as the Glen de Saint Géry Names Supporting Organisation.
