Welcome to Pre-ICANN62 Policy Webinar

David Olive
Senior Vice President, Policy Development

PRE-ICANN63 POLICY OPEN HOUSE
11 OCTOBER 2018
Welcome and Introduction

Open House Format

- **Interactive Format** | A question and answer exchange with the Policy Team
- **Simultaneous Interpretation** | Interpretation in Spanish

David Olive
Senior Vice President, Policy Development Support
Multistakeholder Policy Development

The ICANN Policy Development Support Team facilitates bottom-up, consensus-driven processes for global gTLD, ccTLD and IP address policies.

**GNSO Policy Development Process**

**Country Code Names Supporting Organization (ccNSO)**

**Address Supporting Organization (ASO)**

**Multistakeholder Policy Development**

The ICANN Policy Development Support Team facilitates bottom-up, consensus-driven processes for global gTLD, ccTLD and IP address policies.

**GNSO Council** is composed of 21 members — divided into 2 houses (contracted and non-contracted parties) — who work on generic top-level domain name (gTLD) policies [e.g., com, new gTLDs].

**GNSO Council** is composed of 21 members — divided into 2 houses (contracted and non-contracted parties) — who work on generic top-level domain name (gTLD) policies [e.g., com, new gTLDs].

**ccNSO** (Council and members) works on global policies relating to country code top-level domain name (ccTLD) policies [e.g., .br, .uk].

**ASO** Address Council (AC) is composed of 15 volunteers — 3 from each of the Regional Internet Registries (RIRs) — who work on global Internet Protocol (IP) Address Policy.

**RIRs**

ARIN: Canada, parts of the Caribbean and North Atlantic islands, and the U.S.

APNIC: Asia and Pacific region

APRIN: Africa

AFRINIC: Africa

APNIC: Asia and Pacific region

APRIN: Africa

AFRINIC: Africa

APNIC: Asia and Pacific region

APRIN: Africa

AFRINIC: Africa

RIPE NCC: Europe, the Middle East and parts of Central Asia

**Supporting Organizations/Advisory Committees**

ASO/AC

ccNSO/AC

GNSO/AC

SO/AC

**Facilitator Team (PPFT)**

Any individual may submit global policy proposal to ASO AC or RIR. RIR PDP generates global policy proposal. ICANN Board may also request global policy proposal.

Five RIRs review global policy proposal. Five RIRs must approve identical global policy proposal. Five RIRs submit approved global policy proposal to ASO AC for review.

**ASO AC** submits ratified global policy proposal to ICANN Board. ICANN Board may accept, reject, request changes or take no action.

*Regional Internet Registries (RIRs)*

AFRINIC: Africa

APRIN: Asia and Pacific region

ARIN: Canada, parts of the Caribbean and North Atlantic islands, and the U.S.

APNIC: Asia and Pacific region

LACNIC: Latin America and parts of the Caribbean

RIPE NCC: Europe, the Middle East and parts of Central Asia

Multistakeholder Advice Development

The Policy Development Support Department facilitates bottom-up, consensus-driven processes for advice on global gTLD, ccTLD, and IP address policies.

**Ab-Large Advisory Committee (ALAC)**
- ALAC voices interests of Internet end users and advises ICANN Board on policies within ICANN’s mission and scope.
- ALAC Advisory Development Process:
  1. **Identify the Issue**
  2. **Scope the Issue**
  3. **Develop Advice**
  4. **Draft Advice**
  5. **Issue Advice**
  6. **Ratify Advice**

**Governmental Advisory Committee (GAC)**
- GAC advises ICANN Board on public policy issues, particularly in areas where ICANN is active and has national laws and international agreements.
- GAC Advisory Development Process:
  1. **Identify the Issue**
  2. **Collect Member Views**
  3. **Achieve Consensus**
  4. **Draft Advice**
  5. **Issue Advice**

**Root Server System Advisory Committee (RSSAC)**
- RSSAC advises ICANN Board and community on matters relating to the operation, administration, security, and integrity of the Internet’s Root Server System.
- RSSAC Advisory Development Process:
  1. **Identify the Issue**
  2. **Scope the Issue**
  3. **Develop Advice**
  4. **Issue Advice**
  5. **Ratify Advice**
  6. **Publish Advice**

**Security and Stability Advisory Committee (SSAC)**
- SSAC advises ICANN Board and community on issues relating to the security and integrity of the Internet’s naming and address allocation systems.
- SSAC Advisory Development Process:
  1. **Identify the Issue**
  2. **Study the Issue**
  3. **Preliminary Review**
  4. **Prevent Recommendations**
  5. **Publish Advice**
Cross-Community and High Interest Sessions at ICANN63

- General Data Protection Regulation (GDPR)
- Expedited policy Development Process (EPDP) on the Temporary Specification for generic Top-Level Domain (gTLD) Registration Data
- Innovation in Top-Level Domains
Supporting Organizations & Advisory Committees (SO/AC) Updates
Country Code Names Supporting Organization (ccNSO)

Joke Braeken
ccNSO Policy Advisor

- Policy Development Process (PDP) on the Retirement of Country Code Top Level Domains (ccTLDs)
- Internationalized Domain Name (IDN) Policy Review
- Progress made by the ccNSO Study Group on the use of emoji as second level domains
- Customer Standing Committee (CSC) Effectiveness Review
PDP on Retirement of ccTLDs

- Completed to date:
  - analyses of cases to date (significant change of name of country, dissolution of country/territory)
  - Glossary/terminology
- Under discussion, to be continued at ICANN63. Core elements for policy:
  - Applicability to all ccTLDs non-ccNSO members: ultimately ccTLD needs to be removed,
  - Time when needs to be removed from DNS rootzone
  - How to remove, the road to removal
  - Oversight of process
- Next steps: stress test of recommended policy
Generic Names Supporting Organization (GNSO)

Marika Konings
Vice President, Policy Development for the GNSO
Generic Names Supporting Organization (GNSO)

ICANN63 Highlights

Significant time for PDP F2F WG meetings:
• EPDP on Temporary Specification
• New gTLDs Subsequent Procedures
• Review of Rights Protection Mechanisms in all gTLDs

Bilateral meetings with the ICANN Board, ccNSO and Governmental Advisory Committee

GNSO Sunday Sessions:
• PDP 3.0
• Update on new approach for fellowship program
• Interview with GNSO Chair Candidates
• Internet Governance Engagement Group

GNSO Stakeholder Group and Constituency Meetings

GNSO Council Meeting:
• Curative Rights Protections for IGO/INGOs PDP
• GNSO Council Liaison to the GAC
• GNSO Chair Elections
• Termination of Next Generation RDS PDP WG

GNSO Wrap-up Session
EPDP on Temporary Specification for gTLD Registration Data

Overview
On 17 May 2018, the ICANN Board approved the Temporary Specification for gTLD Registration Data to allow contracted parties to comply with existing ICANN contractual requirements while also complying with the European Union’s General Data Protection Regulation (GDPR). The adoption of the temporary specification triggered the requirement for the GNSO to complete a consensus policy development process on the temporary specification within a one year period. An EPDP was initiated on 19 July 2018.

What to expect at ICANN63
Extensive time has been carved out at ICANN63 to allow the EPDP Team to continue its deliberations as well as present its draft recommendations to the community:
• Full day EPDP Team meeting on Saturday
• EPDP Team sessions (90 minutes each) on Sunday, Wednesday and Thursday
• High Interest Topic session on Monday from 15.15 – 16.45

EPDP Team’s Goal
The scope of the EPDP Team’s efforts includes confirming, or not, the Temporary Specification by 25 May 2019. Additionally, the scope includes discussion of a standardized access model to nonpublic registration data; however, these discussions will occur only after the EPDP Team has comprehensively answered a series of “gating questions”, which are specified in the charter.
Generic Names Supporting Organization (GNSO)

Steven Chan
Policy Director, GNSO Support
PDP on New gTLD Subsequent Procedures

Overview
The New gTLD Subsequent Procedures PDP (SubPro) was initiated in December of 2015 and is tasked with considering the 2012 round of the New gTLD Program to determine how to improve, refine, or develop new policy recommendations for new gTLDs, taking into account existing new gTLD policy recommendations from the GNSO’s 2007 Final Report on the Introduction of New gTLDs.

What to expect at ICANN63
The SubPro PDP was allocated a full day to meet on Saturday.
- From 09:00-13:15, Work Track 5 (WT5), dedicated to the topic of geographic names at the top-level, will meet to discuss open topics and its draft Initial Report
- From 13:30-18:30, the full Working Group will meet to discuss a supplemental report and kick off sub groups charged with reviewing public comment on its Initial Report.

SubPro’s Goals
The SubPro PDP will be looking to make progress on a number of areas and looks forward to input from the wider community. The SubPro PDP is focusing on three major areas:
- Beginning review of feedback on its Initial Report
- Receiving feedback on its supplemental report
- Making progress towards publishing the WT5 Initial Report after ICANN63.
Address Supporting Organization (ASO)

Carlos Reyes
Strategic Policy Planning Director

- Address Supporting Organization (ASO) Organizational Review Update
- Regional Internet Registry Policy Development Activities
At-Large Advisory Committee (ALAC) and At-Large Community

Heidi Ullrich
Vice President, Policy Development and At-Large Relations

- The 15 Member At-Large Advisory Committee represents the best interests of Individual Internet Users. At-Large consists of over 230 At-Large Structures and over 90 individuals.

- **Change in ALAC Leadership at ICANN63** – Maureen Hilyard will become ALAC Chair as Alan Greenberg steps down after four years.

- **At-Large at ICANN63** - At-Large will have 24 sessions during ICANN63 with a focus on two main projects and two primary policy issues.

- **At-Large Review Implementation** – The At-Large Review Implementation WG will continue to make progress on the 16 issues it is addressing including their policy advice process, outreach and engagement, and communications.

- **At-Large Summit (ATLAS) III** – Plans for a third At-Large Summit will be discussed during ICANN63. ATLAS III will be a smaller meeting focused on the At-Large Review Implementation taking place at ICANN66.
At-Large Advisory Committee (ALAC) and At-Large Community

Evin Erdoğdu  
Policy Development Senior Coordinator

Silvia Vivanco  
At-Large Regional Affairs Senior Manager

• Policy Highlights at ICANN63
  • General Data Protection Regulation
  • Generic Top-Level Domain (gTLD) Subsequent Procedures
  • Policy Highlights since ICANN 62

• Regional At-Large Organization Activities at ICANN63
  • EURALO virtual General Assembly
  • AFRALO-AFRICANN meeting
  • Regional Leadership Activities to focus on key policy topics and outreach and engagement activities
Governmental Advisory Committee (GAC)

Robert Hoggarth
Vice President, Policy Development and GAC Relations

Barcelona Hot Topics For GAC:

• High Level Government Meeting
• GDPR (GNSO EPDP and Unified Access Model)
• 2 Character Country Codes at the Second Level
• Geographic Names (New gTLD Sub. Pro. PDP WT5)
• CCWG - Work Stream 2 Accountability
• IGO Curative Rights Protections
• Traditional Priorities:
  o Direct Discussions with ICANN Board, ALAC, ccNSO, GNSO, Nominating Committee, PTI
  o GAC Communiqué
High Level Government Meeting Highlights – Monday 22 October

- Hosted approximately once every two years by a GAC Member in conjunction with an ICANN public meeting and in addition to the usual GAC meeting.
- Concept grew out of recommendations made by previous Accountability and Transparency Review Teams (ATRT1 and ATRT2) (reaffirming roles & clearer understanding)
- Barcelona is the 4th HLGM
- Four Topic sessions:
  - The Role of and Opportunities For Governments in ICANN – Post IANA Transition
  - Thematic Challenges in the IG Ecosystem – Cybercrime, Data Protection and Privacy
  - The Internet Technological Evolution and the Role of ICANN
  - Global Digital Agenda and Internet Policies
- Participation From ITU Secretary General (Lunch Address To Delegation Leaders)
- Post-Meeting Reception (Delegations with Board and SO-AC Chairs)
- Additional GDPR Info session for government attendees
- Seventy-one HLGM delegations have already RSVP’d for the meeting
Root Server System Advisory Committee (RSSAC)

Steve Sheng
Senior Director, Policy Development Support and Team Lead in Support of RSSAC and SSAC

- RSSAC040: Recommendations on Anonymization Processes for Source Internet Protocol (IP) Addresses Submitted for Future Analysis
- RSSAC039: RSSAC Statement Regarding ICANN’s Updated Key Signing Key (KSK) Rollover Plan
- RSSAC Organizational Review Update
Root Zone Evolution Review Committee (RZERC)

Steve Sheng
Senior Director, Policy Development Support and Team Lead in Support of RSSAC and SSAC

- RZERC001: Feedback on the Updated Plan for Continuing the Root Key Signing Key (KSK) Rollover
Security and Stability Advisory Committee (SSAC)

Steve Sheng
Senior Director, Policy Development Support and Team Lead in Support of RSSAC and SSAC

- SAC102: Comment on the Updated Plan for Continuing the Root Key Signing Key (KSK) Rollover
- Update on Name Collision Analysis Project
- SSAC Organizational Review Update
Adobe Connect room microphones have now been enabled. To activate your microphone, please click on the microphone icon at the top of the toolbar and follow the instructions.

Please remember to MUTE your microphone when not speaking.
Questions received through the registration form 1

- What kind of support/background/profiles do the different PDP`s need? How can we achieve more PDP participation & engagement by newcomers/fellows? How much participation does the LAC region have on PDP? [https://www.icann.org/news/multimedia/3335](https://www.icann.org/news/multimedia/3335) [http://icannlac.org/EN/progress](http://icannlac.org/EN/progress)

- How long does a policy take before it is implemented and also what processes does it go through? [https://www.icann.org/news/multimedia/3335](https://www.icann.org/news/multimedia/3335)

- With so few words as possible, try to explain the policy in general, and how it will inflect the internet and affect users? Please give some examples. [https://www.icann.org/policy](https://www.icann.org/policy)

- Current state of EPDP for GDPR? Please see slide 11. [https://community.icann.org/x/IYEpBQ](https://community.icann.org/x/IYEpBQ)
Questions received through the registration form 2

- What is the role of GDPR to Root Zone DNSSec KSK?

  There is no role or impact of GDPR to DNSSec KSK.

- How will emoji be used as second level domains and what are applications? When do ccTLDs reach retirement? What are the advantages of the ‘next generation RDS’ over the legacy WHOIS? Please see slide 11 and slide 8.

- Trabajo en materia de políticas sobre el retiro de los dominios de alto nivel con código de país (ccTLD) - Work on policy regarding the removal of high level domains with country code (ccTLD)

  Please see slide 8.
Thank You!
