**Purpose and Guidance**

This template was assembled by ICANN Policy Staff to help a new constituency construct a comprehensive charter document. It was distilled from a detailed analysis of existing GNSO constituency charters and a selection of common structures, topics, and relevant components. It is organized into major thematic headings with individual sections containing keywords/phrases intended to suggest specific content that, when completed, would describe the constituency’s rules, procedures, and/or practices for that element. To clarify the intended substance of each title/heading, the Staff has added guiding questions, explanatory notes, and suggested content/topics. In a few instances, language extracted from an existing constituency charter has been inserted for illustrative purposes and to stimulate other useful ideas.

At first review of this template and its exhaustive array of topics, the prospect of constructing one may appear to be a daunting challenge. Two points should be kept in mind when working with this template: (1) the Board recognizes that, as a practical matter, charter documents often evolve over extended time periods as membership expands, leaders change, and experiences are gained; and (2) it is not required that every subsection be completely addressed before petitioning the Board for constituency recognition and approval.

The NPOC will maintain a public website that will contain membership and activity information. All NPOC members understand and accept that their membership will be made public; however, individual representative email and other contact information will be not publicly distributed without prior permission.

7.0 GNSO Council Representatives (CRs)

7.1 Elections
CRs may be elected by NPOC members pursuant to Section 8.2 unless an alternative Stakeholder Group process is provided for in the NCSG Charter, which shall govern all CR elections.

7.2 Regional Representation
The NPOC shall seek to recruit and elect CRs from a variety of global Regions. Determination of which Region(s) are represented by CRs is made by the Membership Committee Chair according to the criteria set forth in Section 2.2 and any geographic diversity needs or requirements communicated by the NCSG.

7.3 Responsibilities
7.3.1 Participation in the Constituency. Each CR shall actively and faithfully participate with the EC and the Constituency Members in considering policy issues.

7.3.2 Participation in the GNSO. Councilors shall:
7.3.2.1 Actively participate in the regular affairs of the GNSO Council including, inter alia, attending its scheduled meetings, staying abreast of the technical and administrative agenda, engaging in relevant email and live discussions, reading minutes, evaluating reports, listening to meeting recordings (in the event of absence), asking questions that foster learning, voting responsibly on all matters before the Council, and periodically reviewing the performance of the Chair and Vice-Chairs;
7.3.2.2 Request and receive sufficient information, including support from their Constituencies or Stakeholder Groups, as appropriate, so Councilors may carry out their responsibilities. When a problem manifests itself or some issue does not make sense, a Councilor has a duty to inquire into the surrounding facts and circumstances and seek guidance; and

7.3.2.3 Actively and faithfully participate in the activities of the GNSO Council and in advancing the goals of the Constituency in every aspect of the GNSO Policy Development Process.

7.3.3 Communication. Each CR shall inform, in a timely manner and by use of the Public List, all Constituency Members of:

7.3.3.1 The initiation of new working groups or policy development processes within ICANN;

7.3.3.2 ICANN public comment periods;

7.3.3.3 Any final vote by the GNSO Council, at least two (2) weeks in advance of the scheduled vote; and

7.3.3.4 Any other matter reasonably pertinent to permitting the full involvement in ICANN policy development by the NPOC.

7.3.4 Constituency Representation and Voting. Each CR shall represent in the GNSO Council the goals and priorities of the Members to the best of his/her ability and in accordance with the principle of consensus building, as follows:

7.3.4.1 Given the GNSO Council’s size and the voting thresholds that have been defined, it is important that votes of the NPOC be registered, through our elected representatives, on every matter of significance that comes before the Council for action;

7.3.4.2 Positions that reach consensus within the NPOC are presumptively binding on the CRs’ votes. This presumption may be rebutted only with the consent of the Members and in the event of very significant countervailing concerns, which concerns must be disclosed to the Members; and

7.3.4.3 On issues without Constituency consensus, CRs are authorized to vote on GNSO Council matters as they think best with a reasonable effort to reflect the positions held by Members of the NPOC.

7.3.5 Voting Remedies. Given the GNSO Council’s size and the voting thresholds that have been defined, it is important that in the NPOC has councilors on the GNSO Council votes of the NPOC be registered on every matter of significance that comes before the GNSO Council for action. For CR occurrences of abstention, planned absence, and vacancy, the NPOC intends to utilize the voting remedies provided in the GNSO Operating Procedures (GOP) which include:
7.3.5.1 **Temporary Alternate.** The EC may identify one or more Members who satisfy the GOP criteria and can be called upon to serve in this capacity when a CR is unable to fulfill his/her normal obligations on the GNSO Council.

7.3.5.2 **Notification.** In order to permit the NPOC to avail itself of the voting remedies provided, CRs are obligated to notify the EC (including reason), via the procedures contained in the GOP, as far in advance as practicable, whenever a condition occurs that would cause the CR not to vote on a matter before the Council.

7.3.5.3 **Responsibility.** For the specific remedies of Voting Direction and Proxy, there is a requirement that the NPOC establish a position on the matter at issue. In the event that the NPOC does not have a clearly established position on a matter and there is insufficient time to determine one using its normal procedures:

7.3.5.3.1 The Chair, in consultation with the appropriate Vice-Chair, will determine whether to exercise a voting remedy and to authorize its execution.

7.3.5.3.2 For matters involving policy positions, the Chair, with the concurrence of the Vice-Chair Policy, may interpret the NPOC’s position using their best judgment so that a voting remedy may be exercised.

7.3.5.3.3 For non-policy motions/votes, the Chair, with the concurrent of the Vice-Chair, may interpret the NPOC’s position using their best judgment so that a voting remedy may be exercised.

7.3.5.3.4 Any judgment(s) applied under this provision must be communicated to the Members as soon as practicable after the decision is made.

7.3.5.4 **Unplanned Absence.** Because unplanned absences, by definition, do not permit sufficient opportunity or time to declare an abstention and apply a voting remedy, they are to be minimized. CRs who more than occasionally fail to attend GNSO Council meetings in whole or in part, for any reason, without providing the EC sufficient advance notice to evaluate and, at its option, execute a voting remedy, may be subject to removal.

NPOC will follow a calendar year fiscal period and will follow generally accepted accounting practices. High-level financial reports/records will be published to its public website, www.npoc.org, for internal, ICANN community and general public transparency. Detailed financial reports/records will be made available to ICANN staff upon request.
