

Webinar Request: Thank you for joining us early. We will be starting at the top of the hour.

Yaovi Atohoun: hi. we are fine

Yaovi Atohoun: Good

svitlana tkachenko: Everything is working well,.

Yaovi Atohoun: we can hear you

Webinar Request: Please MUTE your phone line and computers, please.

David Olive: Welcome All

Sivasubramanian M: In the abobe room audio I can here the english and spanish channels together

Cheryl Langdon-Orr: CAN thr non presenters lines be muted please

Cheryl Langdon-Orr: thanks

Sivasubramanian M: the channles are overalapping

Anne Aikman-Scalese: I have my volume at the highest level and it is still faint.

Steve Metalitz: qUESTION: When will detailed Costa Rica agenda (with live links) and remote participation information be posted?

Cheryl Langdon-Orr: that is normal Siva mute the computer speakers IF you are using the ohone bride

Cheryl Langdon-Orr: bridge

Sivasubramanian M: ssorry, no problems with this adobe room

Yaovi Atohoun: Question: Will the PP presentation be available after the webinar?

Evan Leibovitch: my bridge sounds more like a tunnel .... but I can make out what David's saying.

Cheryl Langdon-Orr: usually are as is the recordings of both calls

Holly Raiche: Under the WHOIS discussion wil you also look at the SSAC051 paper on WHOIS that is also out for public comment?

Liz Gasster: @ Steve, I think you will see links and other updates updated ongoing now

Cheryl Langdon-Orr: Yes Holly it is on the list of things Liz speaks to

Liz Gasster: and PPTs and recordings will be made available of this webinar

Marika Konings: @Yaovi - yes, the slides will get posted here: <http://gnso.icann.org/calendar/#mar>

Yaovi Atohoun: Thanks

Liz Gasster: @ Holly, only briefly though

Mason Cole: Steve, see <http://costarica43.icann.org/full-schedule>

Steve Metalitz: @Mason, that lists session titles only.

Cheryl Langdon-Orr: we can spend more time on that Holly if we wish to, on the At-Large briefing session on Whols

Steve Sheng: @ Holly, we won't go into details on SAC 051 paper in this session, but there is a public session scheduled on Thursday March 15 in Costa Rica on this.

Mason Cole: @Steve, you're right...I hadn't looked beyond the GNSO agendas

El Financiero: QUESTION when is the gTLD discussion?

Holly Raiche: I am assuming all these links will be available after this meeting?

Liz Gasster: presentation with links will be circulated, all these links work now.

Holly Raiche: An SSAC paper also deals with this issue

El Financiero: QUESTION I meant, will there be an specific discussion related to new gTLD and defensive applications in Costa Rica? If so, when will it be?

Liz Gasster: AC recording of 13 UTC session has been posted on GNSO Calendar page

Liz Gasster: please see schedule for new gTLD sessions in Costa Rica

Liz Gasster: <http://costarica43.icann.org/full-schedule>

Steve Metalitz: QUESTION: When will status report on RAA negotiations be posted?

Holly Raiche: Wasn't there also an issue with resellers?

Holly Raiche: Okay

Steve Metalitz: QUESTION: When will final issues report on RAA "remaining issues" be published? Since it will not be 15 working days prior to Costa Rica meeting, how can GNSO council take it up there?

Margie Milam: @Steve-- the wording is being finalized- we are hoping to publish the status report in the next few days, certainly before Costa Rica

Holly Raiche: the SSAC did some work on this

Margie Milam: The Final Issue Report will be published after the status report is published-- again before the Costa Rica Meeting

Holly Raiche: K hope they look at the SSAC 051 now out for comment

Margie Milam: @Steve- the GNSO Council rules have an 8 day requirement for motions, not 15 days, but in any event, there is no vote necessary for Board requested PDPs

Margie Milam: @Holly- Reseller issues are part of the negotiations

Steve Metalitz: @ Margie: see See <http://www.icann.org/en/committees/participation/document-publication-operational-policy-30oct09-en.pdf>

Margie Milam: @ Steve- for GNSO Council related discussions, the Council has been going by the 8 day rule

Evan Leibovitch: I would maintain a distinction between choice and trust. It's certainly possible in a market to have a wide choice between multiple untrustworthy options. Not to say that's the case here, but the distinction is important.

Evan Leibovitch: Julie: ... basic question: since CCWGs are, by their nature, cross community, why are these principles NOT being done in close collaboration with the other stakeholder groups? Coming up with a widely acceptable collaborative solution seems incompatible with the GNSO staying in its "silo" and merely consulting other groups.

Steve Metalitz 2: QUESTION: What is scheduled end time for this webinar?

Julie Hedlund: @Evan: The principles will be circulated for consideration by the other SOs/ACs, giving them the opportunity to contribute to their development

Marika Konings: @Steve - 90 minutes

Evan Leibovitch: That's not quite the same as working on this collaboratively from the start.

Marika Konings: so in 37 minutes ;-)

Evan Leibovitch: The final decision is still to be made solely by the GNSO.

Evan Leibovitch: Not very cross-constituency

Evan Leibovitch: It's just SO ironic that the very discussion of how to make CCWGs work is being done using conventional silo techniques.

Julie Hedlund: @Evan: The GNSO Council initiated the process because it was an issue of particular concern to the GNSO Council, but the final product is for the SOs and ACs to approve.

Julie Hedlund: @Evan: The SOs and ACs will decide whether/how to adopt

Evan Leibovitch: So it CANNOT be approved by the GNSO over the objection of ACs?

Evan Leibovitch: I don't recall that in the charter, but I could be wrong.

Liz Gasster: @ Evan, the GNSO can approve it but other SO/ACs need not use it

Evan Leibovitch: That's not very cross-community, now is it?

Liz Gasster: but the intent is for these to be high level principles that would work for all SOs and ACs and could be modified as needed, not strict rules that must be followed

Evan Leibovitch: Then why couldn't all stakeholders be collaboratively involved from the start? Why the need for silos?

Liz Gasster: ALAC is actively represented by Alan G who has been a terrific contributor

Evan Leibovitch: That's not quite the same as full collaboration.

Evan Leibovitch: Alan is the ALAC rep to ALL things GNSO

Liz Gasster: and the GNSO Council first wanted to make clear for itself what it considers to be the principles for CWGs it wants to engage in

Evan Leibovitch: We were never given the chance to participate as partners

Liz Gasster: so I'm not debating, just explaining having been there in the discussions

Evan Leibovitch: And I'm just explaining the silliness of debating a collaborative process within silos.

Evan Leibovitch: This was a horribly flawed process from the start. GIGO.

Liz Gasster: you may disagree with the sequence and I respect your point completely but I want to emphasize that I think the views of the other SOs and ACs are important to the GNSO

Evan Leibovitch: ... after the fact.

Evan Leibovitch: ... not based in from the start

Evan Leibovitch: baked

jberrhill 2: Wait? How often is the monthly update published?

Steve Metalitz 2: QUESTION: What about the "Consensus Building" session mentioned at the beginning as a "highlight"? When does that take place and what is it about?

Marika Konings: 10.00 - 11.30 on Wednesday

Anne Aikman-Scalese: There was a statement regarding a deadline for hiring a Trademark Clearinghouse provider and that date has passed. What is happening there?

jberrhill 2: YAY!!!

Evan Leibovitch: @ Barry ... in the CCC document, there is acknowledgement that the scope is limited and that a broader evaluation of consumer choice involved evaluation beyond the scope fo the current work. Is anything being done to address this?

Evan Leibovitch: OK.

Cheryl Langdon-Orr: All good from my POV

Cheryl Langdon-Orr: Thank you ALL

Gabriela Szlak: thank you

Hossam Hassan: Thank you all

sandra hoferichtetr: thank you for this session

David Olive: THank You All

svitlana tkachenko: Thank you, Good job

Yaovi Atohoun: bye

Pascal Bekono: Thanks

Cheryl Langdon-Orr: bye

Adela Danciu: thank you for this informative webinar. see you in Costa Rica!

Cheryl Langdon-Orr: Marika I assume the consensus Bld session is in the GNSO room?
