Dear Cherine,

Thank-you for this follow-up. We have worked, together with ICANN Staff, to provide the briefing note requested. I am pleased to provide it as an attachment to this email.

I do think it will be very helpful for the Council to obtain greater clarity on the expectations with respect to the IGO-INGO identifiers and will attempt to provide specific questions. We should consider two possible options;

- (a) a written briefing ahead of the forthcoming Council meeting on September 4th at 15h00 UTC
- OR
- (b) an oral briefing and question and answer session at that same meeting.

We will discuss the options within the Council and revert to you with any specific questions as well as a specific request for (a) OR (b) above as soon as possible.

Best wishes,

Jonathan

Jonathan Robinson
Chair
ICANN GNSO Council
