# Inter-Registrar Transfer Policy (IRTP) Part D PDP Final Report

**James Bladel**

Working Group Chair

# Background / Overview

---

- Final of the IRTP PDPs
- Started work in February 2013
- Initial Report published in March 2014
- Community outreach following WG creation, following Initial Report and during five ICANN meetings
- Final Report published today. See: [www.tinyurl.com/IRTPfinal](http://www.tinyurl.com/IRTPfinal)

# Recommendations Overview

---

- Working Group addressed six Charter questions
- Final Report contains 18 recommendations
- WG members supported all recommendations by full consensus

# Recommendations Overview

---

- Introduce reporting requirements for TDRP rulings
- Multiple-hop scenarios are addressed
- TDRP modified to discontinue Registries as first-level dispute providers
- Extension of TDRP's statute of limitation to now 12 months

# Recommendations Overview

---

- No dispute-option for inter-registrant transfers – but a a list of Use Cases to help guide future policy development
- Improved, centralized display of dispute resolution information for registrants on ICANN's website
- Maintaining the FOA
- Call to gather data for a future review of IRTP - once all recommendations are implemented

# Next Steps

---

- Final Report will be presented during GNSO Weekend session
- Motion will be tabled for the GNSO Council to adopt Final Report during ICANN 51 meeting
- Public comment on Final Report opened after ICANN 51
- Board considering the recommendations early 2015
