

The Internet Corporation for Assigned Names and Numbers

Mr. Jonathan Robinson
Chair, ICANN GNSO Council

30 October 2014

Re: *NGPC Resolution 2014.07.30.NG03 on Implementing Name Collision Occurrence Management Framework*

Dear Jonathan,

On 30 July 2014 the New gTLD Program Committee adopted a [Resolution](#) directing ICANN President and CEO, or his designee(s), to provide information to, and work with the GNSO to consider whether policy work on developing a long-term plan to manage gTLD name collision issues should be undertaken.

Subsequent to that, ICANN staff provided additional information to the Council which included a [briefing paper](#) titled *Potential GNSO Policy Work on gTLD Name Collision Mitigation* followed by an in-person presentation and discussion during ICANN-51 in Los Angeles to assist the Council in its determination of undertaking additional policy work.

I trust that you have found this information helpful to your discussions, but please let me know if there is any additional information or assistance that we can provide to further assist your deliberations.

I thank the Council in advance for the time and attention that it has devoted to this matter.

Sincerely,

Cyrus Namazi
