IANA TRANSITION IMPLEMENTATION

GNSO Obligations

Entity	Description	Occurrence	GNSO Obligation
Customer Standing Committee (CSC) COMPOSITION: Members (mandatory) 2 x ccTLD representatives 2 x gTLD representatives Member (not mandatory) 1 x other TLD representative Liaison (mandatory) 1 x IANA Liaison (not mandatory) 1 each from the GNSO (non-registry); ALAC; GAC; ASO; SSAC; RSSAC	To monitor the performance of the PTI	On-Going, but initial selection immediate	▪ Select a Liaison from the GNSO (non-registry) to serve on the CSC. The appointment of a Liaison is not mandatory. ▪ The GNSO and ccNSO must approve the full membership of the CSC. It is not the role of the GNSO and ccNSO to question the validity of any recommended appointments, but will take into account the overall composition in terms of geographic diversity and skill sets.
[CSC Charter Review]	To review CSC Charter	As needed (1 year after the first CSC meeting, then as requested thereafter)	▪ RySG and ccNSO to conduct first review. ▪ Any recommended changes are to be ratified by the ccNSO and GNSO. ▪ Thereafter the Charter will be reviewed at the request of the CSC, ccNSO or GNSO.
[CSC Effectiveness Review]	To review the effectiveness of CSC	Periodic (2 years after the first CSC meeting, then every 3 years thereafter)	▪ The method of review will be determined by the ccNSO and GNSO.

Entity	Description	Occurrence	GNSO Obligation
[CSC Service Level Target Review]	To review the requests of review or change to the service level targets	As needed	Changes to service level targets as a result of the review must be agreed to by the ccNSO and GNSO.
Root Zone Evolution Review Committee (RZERC)	To advise the ICANN Board of the architectural and operational changes to the root zone environment	As needed	Nil
IANA Function Review Team (IFRT)	To review PTI's SOW and PTI's performance against ICANN-PTI contract and SOW	Periodic (Within 2 years from the transition, then no more than every 5 years thereafter)	• Members of the IFRT will be selected by the SO/ACs in accordance with internally defined processes. • The IFRT will be Co-Chaired by some designated by the GNSO and by the ccNSO.
Special IANA Function Review Team (Special IFRT)	To review the issues identified by CSC (only ccNSO and GNSO can initiate Special IFR)	As needed	• The GNSO could initiate a Special IFR. It would require a supermajority vote of the ccNSO and GNSO Councils.
Separation Cross-Community Working Group (SCWG)	To review the issues raised by the Special IFR and make recommendation	As needed	• Nil
