Annotations																	
(x)	"where available" / optional																
(0)	For details on the billing contact, see RAA 3.4.																
(1)	sponsored/restricted with additional, TLD-specific data elements																
(2)	additional provisions for trademark-related data elements																
(3)	Some TLD and sponsorship agreements are unclear on what elements are mandatory.																
(4)	Some TLD and sponsorship agreements have contradictory language on the billing contact.																
(5)	Additional information about registration type available.																
Coll	Collected and retained, but not published.																
(coll)	Retained, where available																
R	(.com, .net): not required, but added during implementation of the redemption grace period.																
.name	publishes "detailed" WHOIS information on port 43																
U	displayed, if different from registrant. This feature is not currently implemented, so practically U = X.																
[x]	published according to the contract, but not published in implementation.																
.aero	does not actually publish registrar information, but includes a registrar ID and hyperlinks to registrar information.
