

How to register for an ICANN Meeting

1. Sign into your ICANN Account, or create an account [here](#).
2. Register for the appropriate ICANN Meeting by selecting **Meeting Registration** and click on the correct ICANN Registration link.
3. Follow the steps to create a password for this event, which is not the same as your registration password (for security purposes). Previous event passwords will not work.
4. Once registered, you will receive 2 emails:
 1. The first email will be your registration confirmation (usually within 5-10 minutes)
 2. The second email will come after the schedule is published and will include further instructions on how to access and log into the ICANN Meeting website.

Note: Access and the ability to log into the schedule platform can take up to 30 minutes after completing the registration process.
