

Council Committee for Overseeing and Implementing Continuous Improvements (CCOICI)

WS2 Recommendations Report

Olga Cavalli, CCOICI Chair (outgoing)

17 November 2022

Background

As part of the GNSO Framework for Continuous Improvement Pilot, CCOICI was tasked to review the status of the Cross-Community Working Group on Enhancing ICANN Accountability Work Stream 2 (WS2) items that pertain to the GNSO Council.

The items in question relate to:

- Recommendation 1 - Diversity
- Recommendation 2 – Guidelines for Good Faith Conduct
- Recommendation 3 – Human Rights Framework
- Recommendation 6 – SO/AC Accountability

Note that for WS2 recommendations that are directed at the community, a Community Coordination Group (CCG) has been established (new Council representative needed)

Recommendations Report

- ⦿ Puts forward proposed status designations for WS2 recommendations from the perspective of Council (e.g. not applicable for action, complete, implementation planned, action / decision required)
- ⦿ Includes implementation recommendations related to:
 - Rec 2.1.2 (Petition for Removal of Directions) – update existing guidelines as well as instructions to align with WS2 recommendation
 - Rec 3 (Framework of Interpretation for Human Rights) – updating of templates, including a check-list, to facilitate consideration of the impact on human rights of GNSO policy recommendations

Next Steps

Council to consider Recommendations Report for adoption

If/when adopted:

- Communicate status designations to ICANN org team responsible for tracking status of implementation of WS2 items
- Direct staff support team to move forward with implementation of two recommendations and consult with GNSO Council (and/or CCOICI) accordingly.
