

# Registration Data Request Service (RDRS) GNSO Council Update

GNSO Council Meeting

Sebastien Ducos

10 April 2025

# Assignments of RDRS Standing Committee ([Charter](#))

**#1 Trends** that can be identified over a **month-by-month period.**

**#2 Possible technical updates\*** that should be considered to RDRS and/or related messaging and promotion.

**#3 Specific lessons learned** that should be factored into the consideration of how to proceed with the SSAD recommendations.

**#4 Suggestions to the Council** for a proposed recommendation(s) to the ICANN Board in relation to the consideration of the SSAD recommendations.

# RDRS Council Report

During ICANN81 in Istanbul, the RDRS SC concluded that enough data has been received and decided to start drafting their final findings report.

The final findings report will focus on 4 chapters covering the 4 RDRS SC assignments:

**Trends and Metrics  
(Chapter 1)**

**Proposed System  
Enhancements (Chapter 2)**

**Lessons Learned reg.  
SSAD recommendations  
(Chapter 3)**

**Suggestion to the GNSO  
Council (Chapter 4)**

The RDRS SC is currently reviewing/working on chapter 1 to 3.

# RDRS- Preliminary Trends and Conclusions

---

## Chapter 1 - Trends

[Annual Report](#)

---

## Chapter 2 - System enhancements

Some proposed future enhancements include:

[API](#)
